Mr. Lawrence recommended that three crosswalks be laid across Newark Avenue at Berkeley Avenue, Baldwin Place and Newark Avenue, and across Bloomfield Avenue south of the Second River. Mr. Lawrence also recommended that a cobble stone gutter be laid at the junction of Beach and Elm Streets. All of which was adopted unanimously.

Mr. Moore reported numerous complaints of trees being uined by the electric wires and cutting out of the limbs. Another instance was cited where the employees had climbed the trees with spurs. The maple trees near the residence of E. S. Osborne on Montgomery Avenue have been thus mutilated. The constant chafing of the wires against the trees will wear through the insulated wire. An examination has proved this to be the case. The only remedy will be to place the wires underground.

This matter was referred back the Lighting Committee for further investigation and report. Mr. Lawrence stated that Contrac-

tor E. J. Clark would begin the work on the sewers on Wednesday morning and recommended that the following five inspectors be appointed. There were a number of other applications but these were approved by the Com- Park M. E. Church in the evening drew large mittee : George M. Cadmus, Howard and attentive andiences. A majority of the address or call at No. 537 Bloomfield Ave, residents around the park favor the location of the band stand, which will be hexagonal in shape

Mr. Foster made a motion which was adopted that the band stand be erected at a cost not to exceed \$225. We, the undersigned, have known F. J.
